**Specialist Services
In association with red24**

Managing traveller safety and security is a key part of any travel programme. We provide a comprehensive range of security and risk management solutions in association with red24, a market leading security specialist.

Specialist Services

Why red24?

red24 are specialists in global security assistance and risk assessment. They have a global network of over 400 security experts delivering a comprehensive range of security solutions to organisations around the world.

Comprehensive range of solutions

red24 provide a number of intelligence options to ensure that your organisation and employees are well prepared for any business travel. Services include emergency response capabilities, as well as online country intelligence and security advice which can be tailored to the organisation or individual itinerary. red24 are also experts in the provision of security training and consulting, including crisis rehearsals, and travel policy review.

BENEFITS OF HRG SECURITY SUITE™ - SPECIALIST SERVICES

Specialist expertise – red24 operate a global network of dedicated experts, with government, military or police experience.

Client focused – security programmes are tailored to adhere to client travel policy, and flex according to changing security situations or individual itineraries.

Flexibility – the service is tailored to the scale and complexity of the security requirements. A full range of services are available, from destination intelligence up to in-country direct response. Escalation protocols ensure duty of care for employees is maintained whenever and wherever they travel to.

Pro-active intelligence – including daily security news, specific trip reports and on-going monthly destination information.

Online and mobile – security information and reports provided online, and via email.

Consultancy – bespoke training can be provided to prepare travellers prior to their trip, along with guidance and review of the corporate travel security policy.

Global incident response – available 24/7 to provide security response services anywhere in the world, in the event of a serious incident or life-threatening situation.

Global Security Specialists

red24 has an unparalleled reputation for providing a comprehensive range of security solutions to corporate clients around the world, helping to minimise the risks to personnel, operations and profitability. The experienced multi-disciplinary team of security experts are ready to help 24 hours a day, seven days a week, no matter where in the world.
